AI Powered Ads

Our Process

Our clients approach us at various stages of their digital marketing journey, whether they are launching a new website or undergoing a rebranding process.

We assist businesses in reaching new audiences through SEO and PPC while also helping them nurture relationships with their existing customers via social media and email.

We develop tailored strategies for every company we work with, regardless of whether they are small startups or larger corporations.

When a client starts working with us when they have a website but are not sure where to start this is our process:

1. Book a free audit with us

2. Plan website improvements

3. Start ongoing search engine optimisation

4. Research paid ad opportunities

5. Integrate data capture and automations

6. Engage customers with social media & email

Working With You

We pride ourselves on delivering top-quality results that are based on proven techniques and certified up-to-date knowledge of search marketing practices. We are an agency that gets results with case studies and credentials to back it up.

Our mission is to help you understand, and maximise your online potential. Our expert team of digital marketers and designers can help you get more out of your digital assets.

Website Design & Development

We view a website as an evolving marketing tool that must adapt to your business and industry. Our focus is on user behavior, conversions, and compelling visuals.

We offer unique website design options, including both standalone builds and retainer-based projects, allowing flexibility for ongoing marketing efforts or in-house management.

Our websites range from simple brochure sites to complex eCommerce stores, all built on open-source platforms.

Our website audit helps identify the best style for your business and allows you to meet the team working on your project.

Search Engine Optimisation

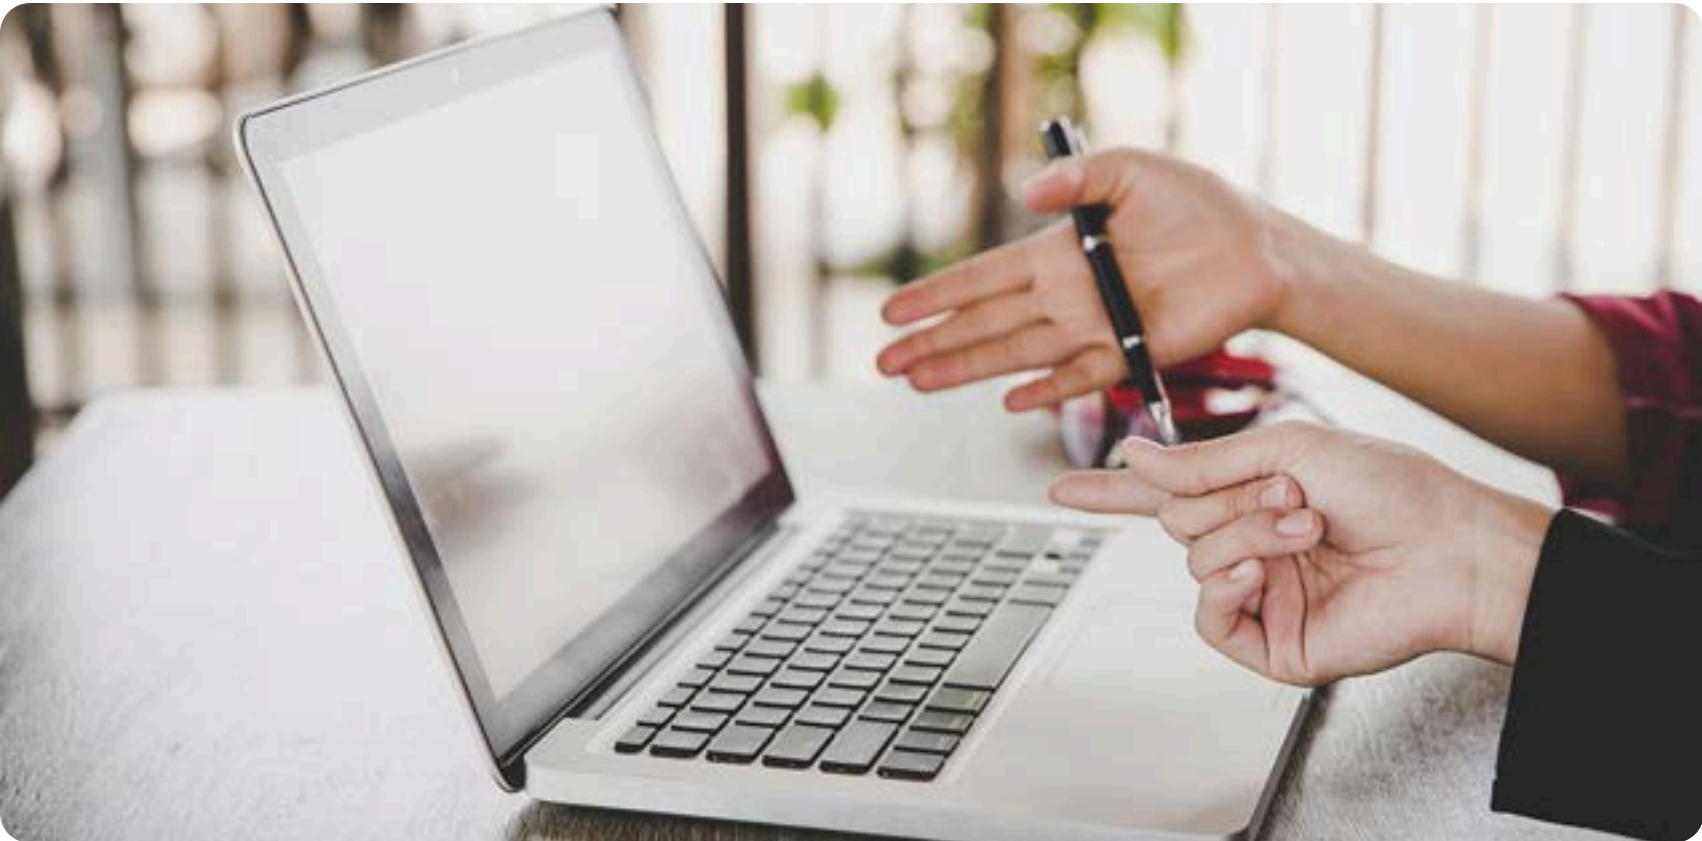

Experience and technology keep us ahead of others

Every business needs SEO. It's a simple fact of modern business life. Almost 92% of all search engine traffic comes from the first page of results. When users are searching for products or services that your business offers, you need to be found.

However, for many business owners, gaining a first-page ranking is complicated and takes a long time. Our SEO services mean that you can get on with running your business, and leave us to promote your company online.

How do we achieve SEO success?

- Link Building
- Keyword Research
- Traffic Analysis
- Rank Tracking
- Content Creation
- Brand Development

Pay Per Click

When done right, Paid Ads are a surefire way to grow your business!

Getting found on Google isn't easy, but if you want to create a consistent incoming stream of leads and beat the competition to the highest spots on search results pages, you need to spend some money! But that doesn't mean you'll be putting your marketing budget at risk.

We provide a Modern & Measurable Approach to Paid Marketing

Paid Advertising works. If you're already doing it and it's not working for you, that doesn't mean it can't – it usually means you're not managing it correctly. If people are searching the web for a product or service like yours, we can make sure they find you!

Angry Apple Media benefits significantly from being a Google Partner, gaining access to a suite of advanced tools, resources, and support. This partnership enhances our capability to deliver superior digital marketing solutions, utilising the latest Google technologies and insights. The certification provides credibility and reassures our clients of our expertise in Google Ads and analytics. We also receive priority support from Google, early access to new features, and training opportunities, enabling us to stay ahead and create better results for you.

Keyword Research

Content & Design

Budget Management

Automated Marketing & Sales

So you're generating leads through various channels, now what?

Short answer, You need our CORE System designed to help companies market better and sell more!

We offer one simple cloud-based platform where all of your sales & marketing efforts can be managed. Everything from your CRM system, data capture forms, social media posting, email marketing, pipeline development and more, are combined on one single platform that can be accessed from anywhere.

The concept is simple, use our systems tools to nurture and qualify leads until they are ready to buy or pass on to the sales team.

When a lead is ready to convert, hit them with the perfect purchase offer, or send in the sales team to swoop in for a simple, seamless closing experience that helps companies turn warm leads into happy customers.

AI Marketing

AI marketing is revolutionising how businesses approach digital outreach, AI marketing not only streamlines operations but also delivers a more personalised, efficient, and engaging experience to users, ultimately driving business growth and customer satisfaction.

Website Intelligence Tracking: Machine learning enables real-time analysis of large data sets, revealing patterns that improve content delivery and user experience.

Search Engine Optimisation (SEO): AI tools enhance SEO by analysing search trends and user engagement to recommend effective keywords and streamline competitor analysis.

Paid Advertising: AI algorithms optimise ad campaigns by adjusting bids in real-time, targeting based on demographics and behaviours, and predicting outcomes for better ROI.

Re-marketing: AI boosts re-marketing by analysing past visitor interactions and displaying relevant ads across platforms, increasing conversion chances.

Email Marketing and Automation: AI improves email campaigns through A/B testing, optimal send times, and personalised content, while automating triggers based on user actions.

Case Studies & Testimonials

Here at Angry Apple, we can cater to a whole selection of services for your business.

From website design and development all the way through to marketing and design.

But we prefer to let our work speak for itself...

Melissa & Doug

Timeless Toys. Endless Possibilities.

International Website Design & Development

Melissa & Doug is an American manufacturer of children's toys, including wooden puzzles, arts & crafts products, plush toys, and other educational toys.

The company was founded in 1988 by Melissa and Doug Bernstein in their basement and in Doug's parents' garage. The company now has factories in the U.S. and abroad with about 1,000 employees worldwide.

Angry Apple was tasked with creating the UK and German websites for Melissa & Doug to expand their brand reach across Europe. The overall design and layout of the website had to be colourful and fun, as the main demographic for this brand was aimed at children and families.

The website products are developed in WooCommerce. The websites don't sell online, but rather allow people to find their nearest stores local to them, we customised WooCommerce to achieve this.

The site is packed with great features such as an advanced search facility, automated stock synchronisation with the stores' inventory software and super simple product filtering.

Taylex Group

Client Testimonial

“Aside from high-quality developers and designers, what really made the difference working with Angry Apple was the amazing project management. I always felt confident everything was in hand and the results have been outstanding – what more can you ask for from a Digital Marketing Agency?”

Karl Clark - CEO, Taylex Group

Kokoro Performance

Website Design & Development

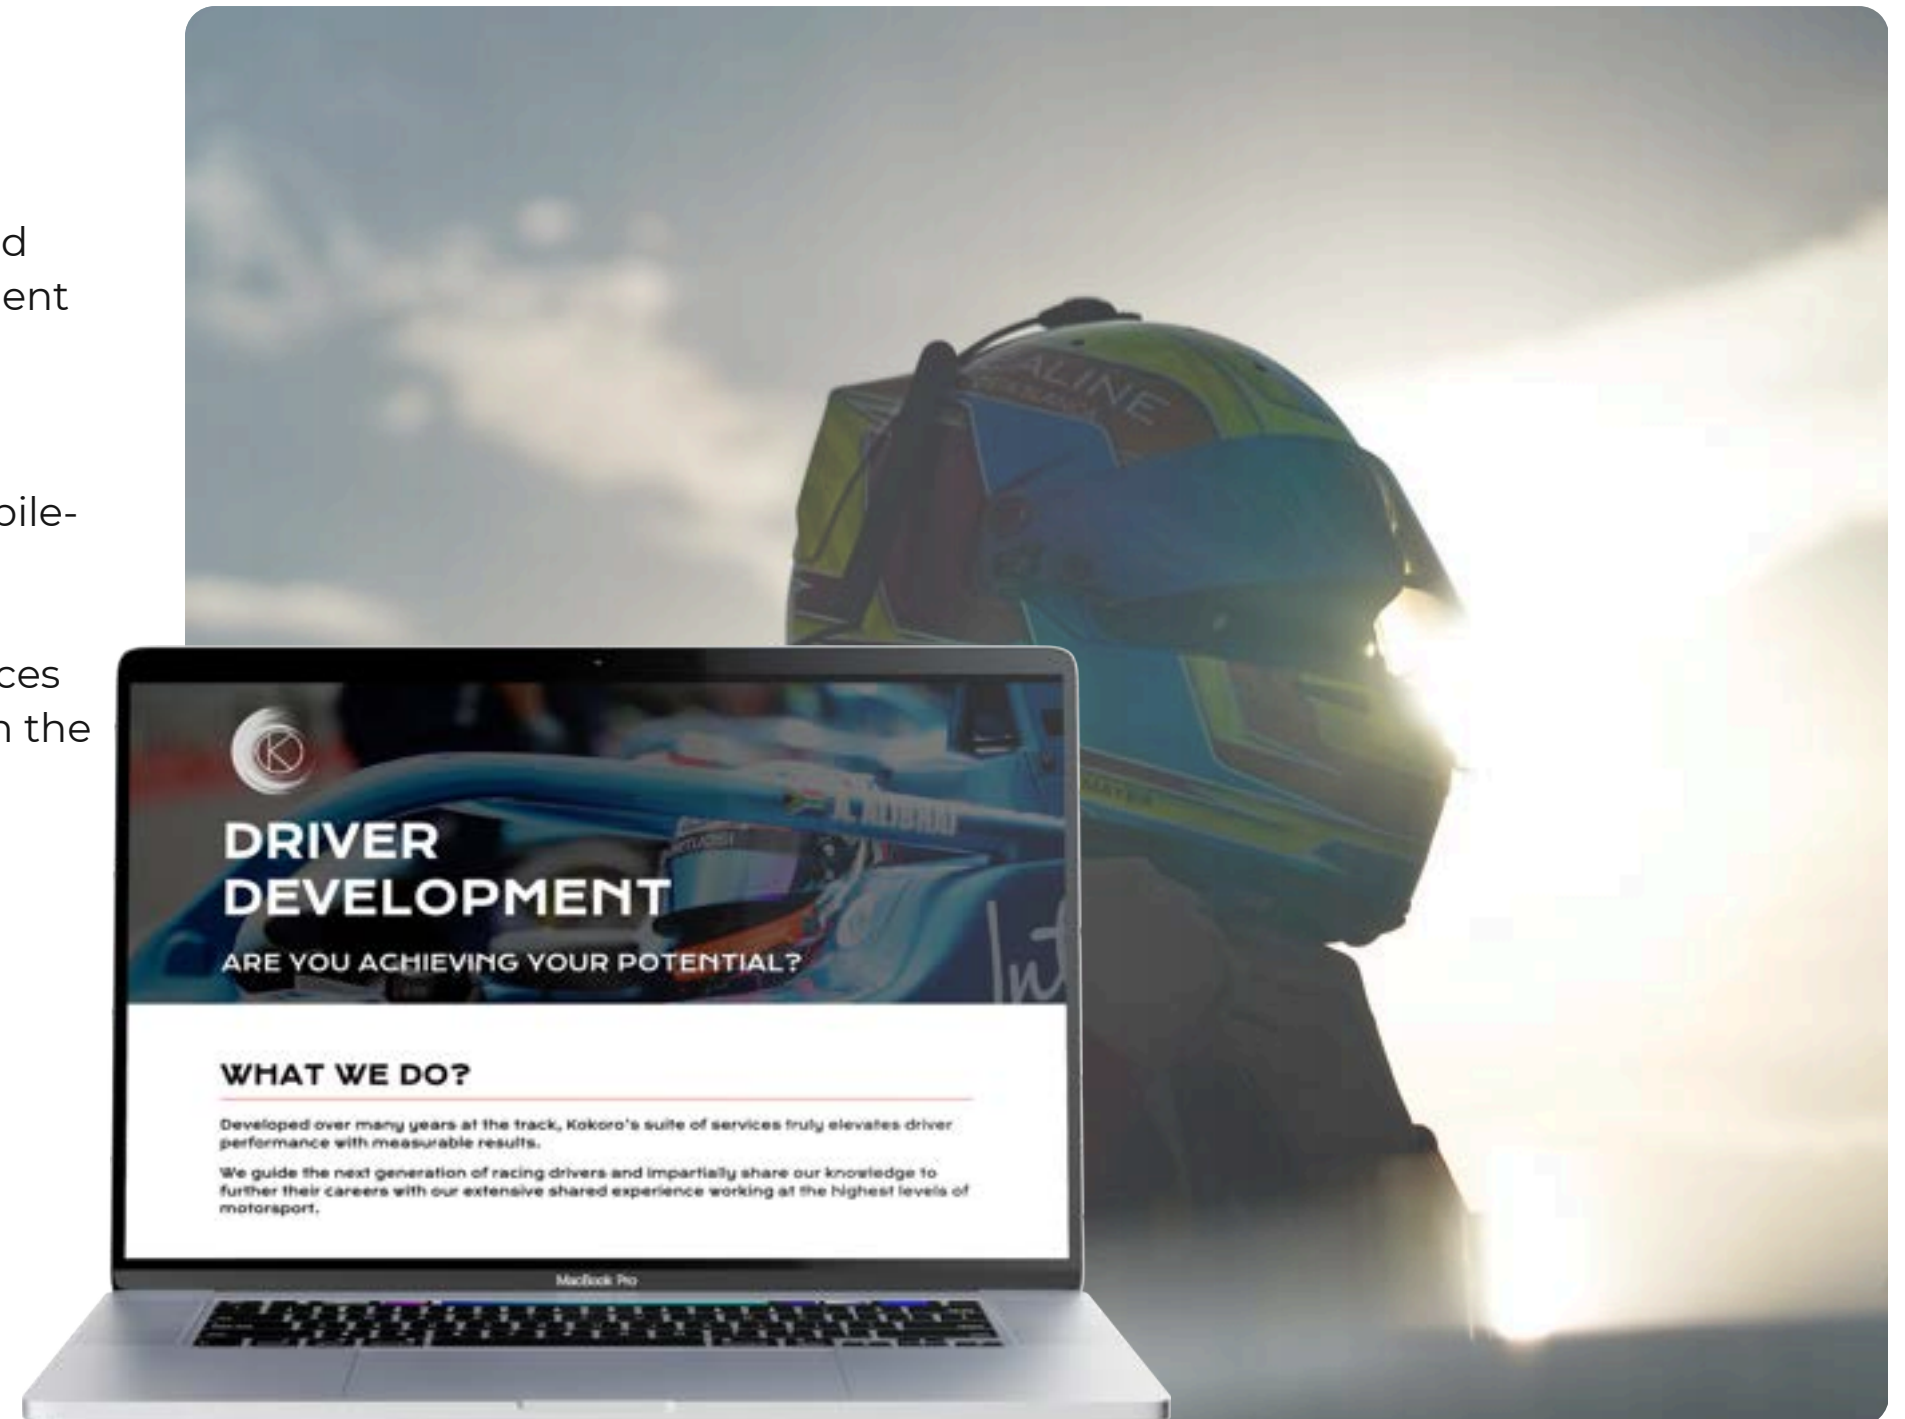

Kokoro Performance tasked us on a project to create a new WordPress website that perfectly showcases their impressive range of services.

This project aimed to enhance brand visibility, improve user experience, and integrate robust e-commerce functionality. The comprehensive project included custom themes and plugins tailored to reflect Kokoro Performance's commitment to quality and innovation.

Our team worked together, to develop an appealing and functional website complete with SEO-optimised content. The team also ensured the site was mobile-responsive and secure, adhering to the latest web security protocols.

Kokoro Performance now have a dynamic online presence that not only enhances user engagement but also drives visibility and improves their market position in the industry.

心 KOKORO

Japanese; "heart, mind, spirit..."

Three elements indivisible from one another that unite the soul."

Kokoro Performance was created to redefine elite driver performance with simple tested techniques, measured development and outside-of-the-box thinking.

Inspired by our name, Kokoro's mission is to work with drivers to bring all elements together so when they arrive on the grid, 100% of their energy and focus is applied to overcoming the competition, not themselves.

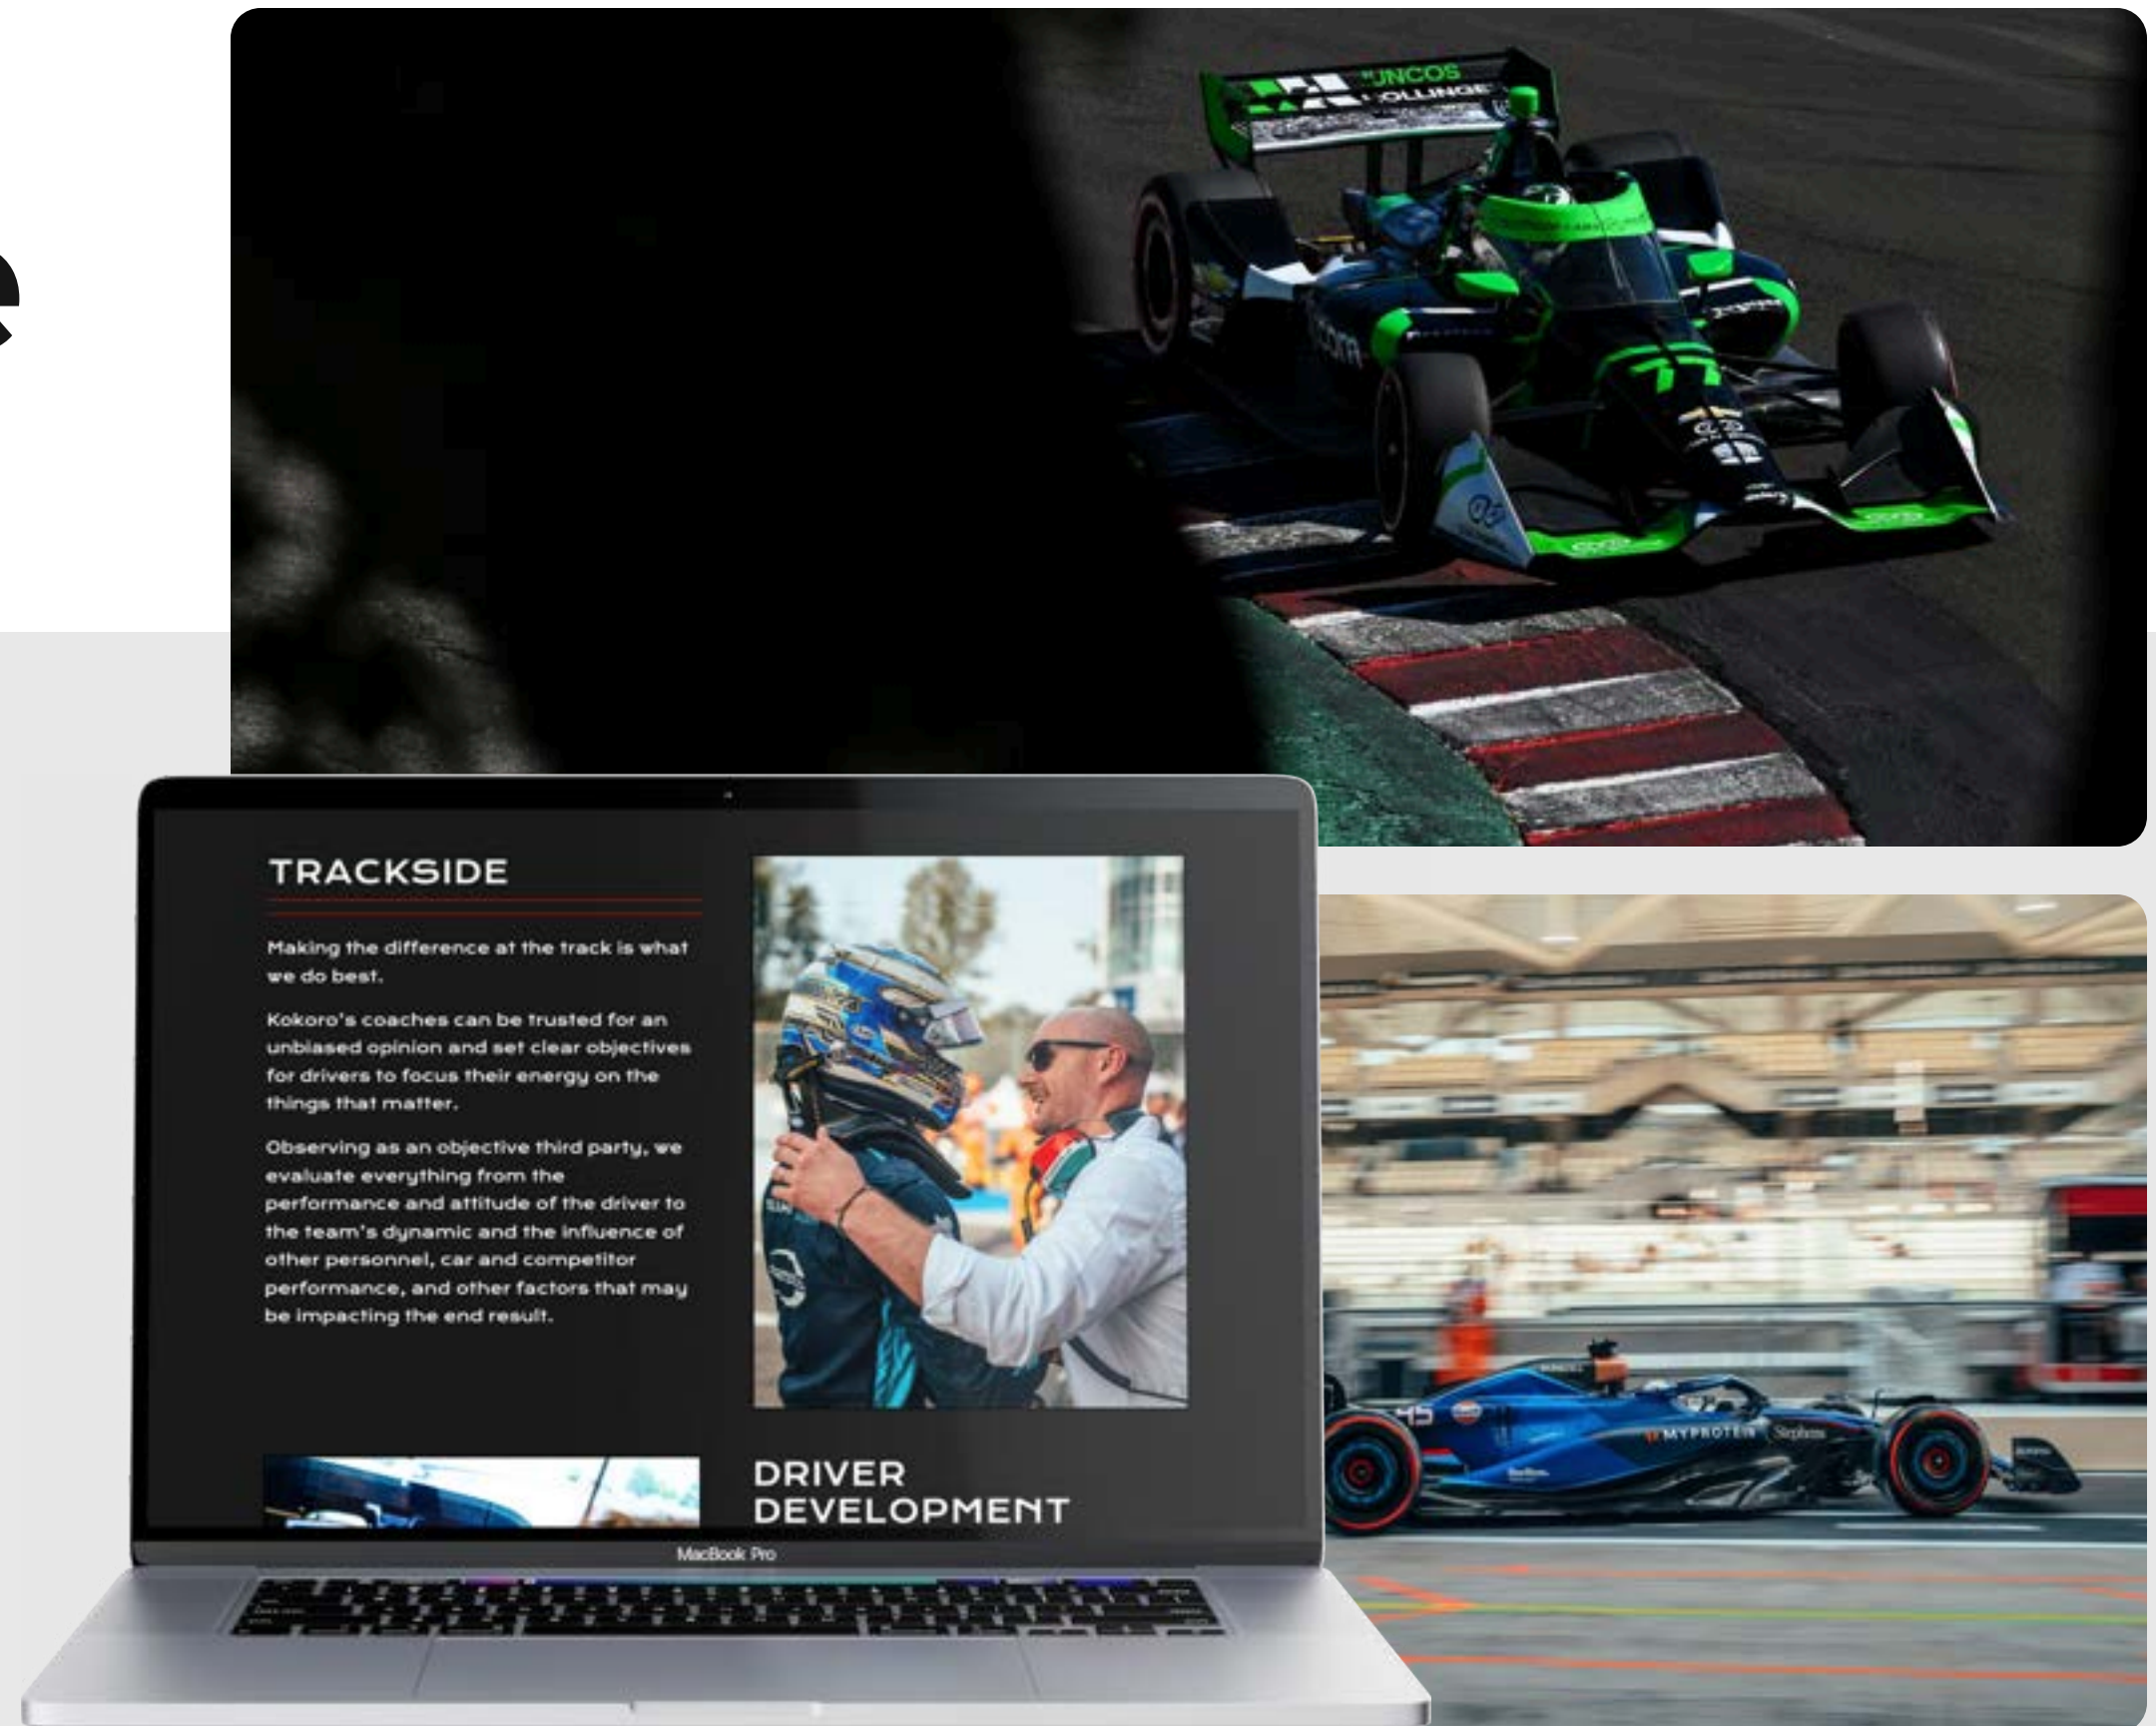

Kokoro Performance

Client Testimonial

“Working with the guys at Angry Apple has been simple and easy from day one, with no ask being too much and great attention to detail with all elements of the work. We were provided with concepts that took our ideas and widened the possibilities of these leading to a very polished end product. The team are highly attentive and has great attention to detail providing quick support whenever needed and therefore removing any doubt in performance.”

Simon Stoneham - Driver Manager, Kokoro Performance

The UKF Group

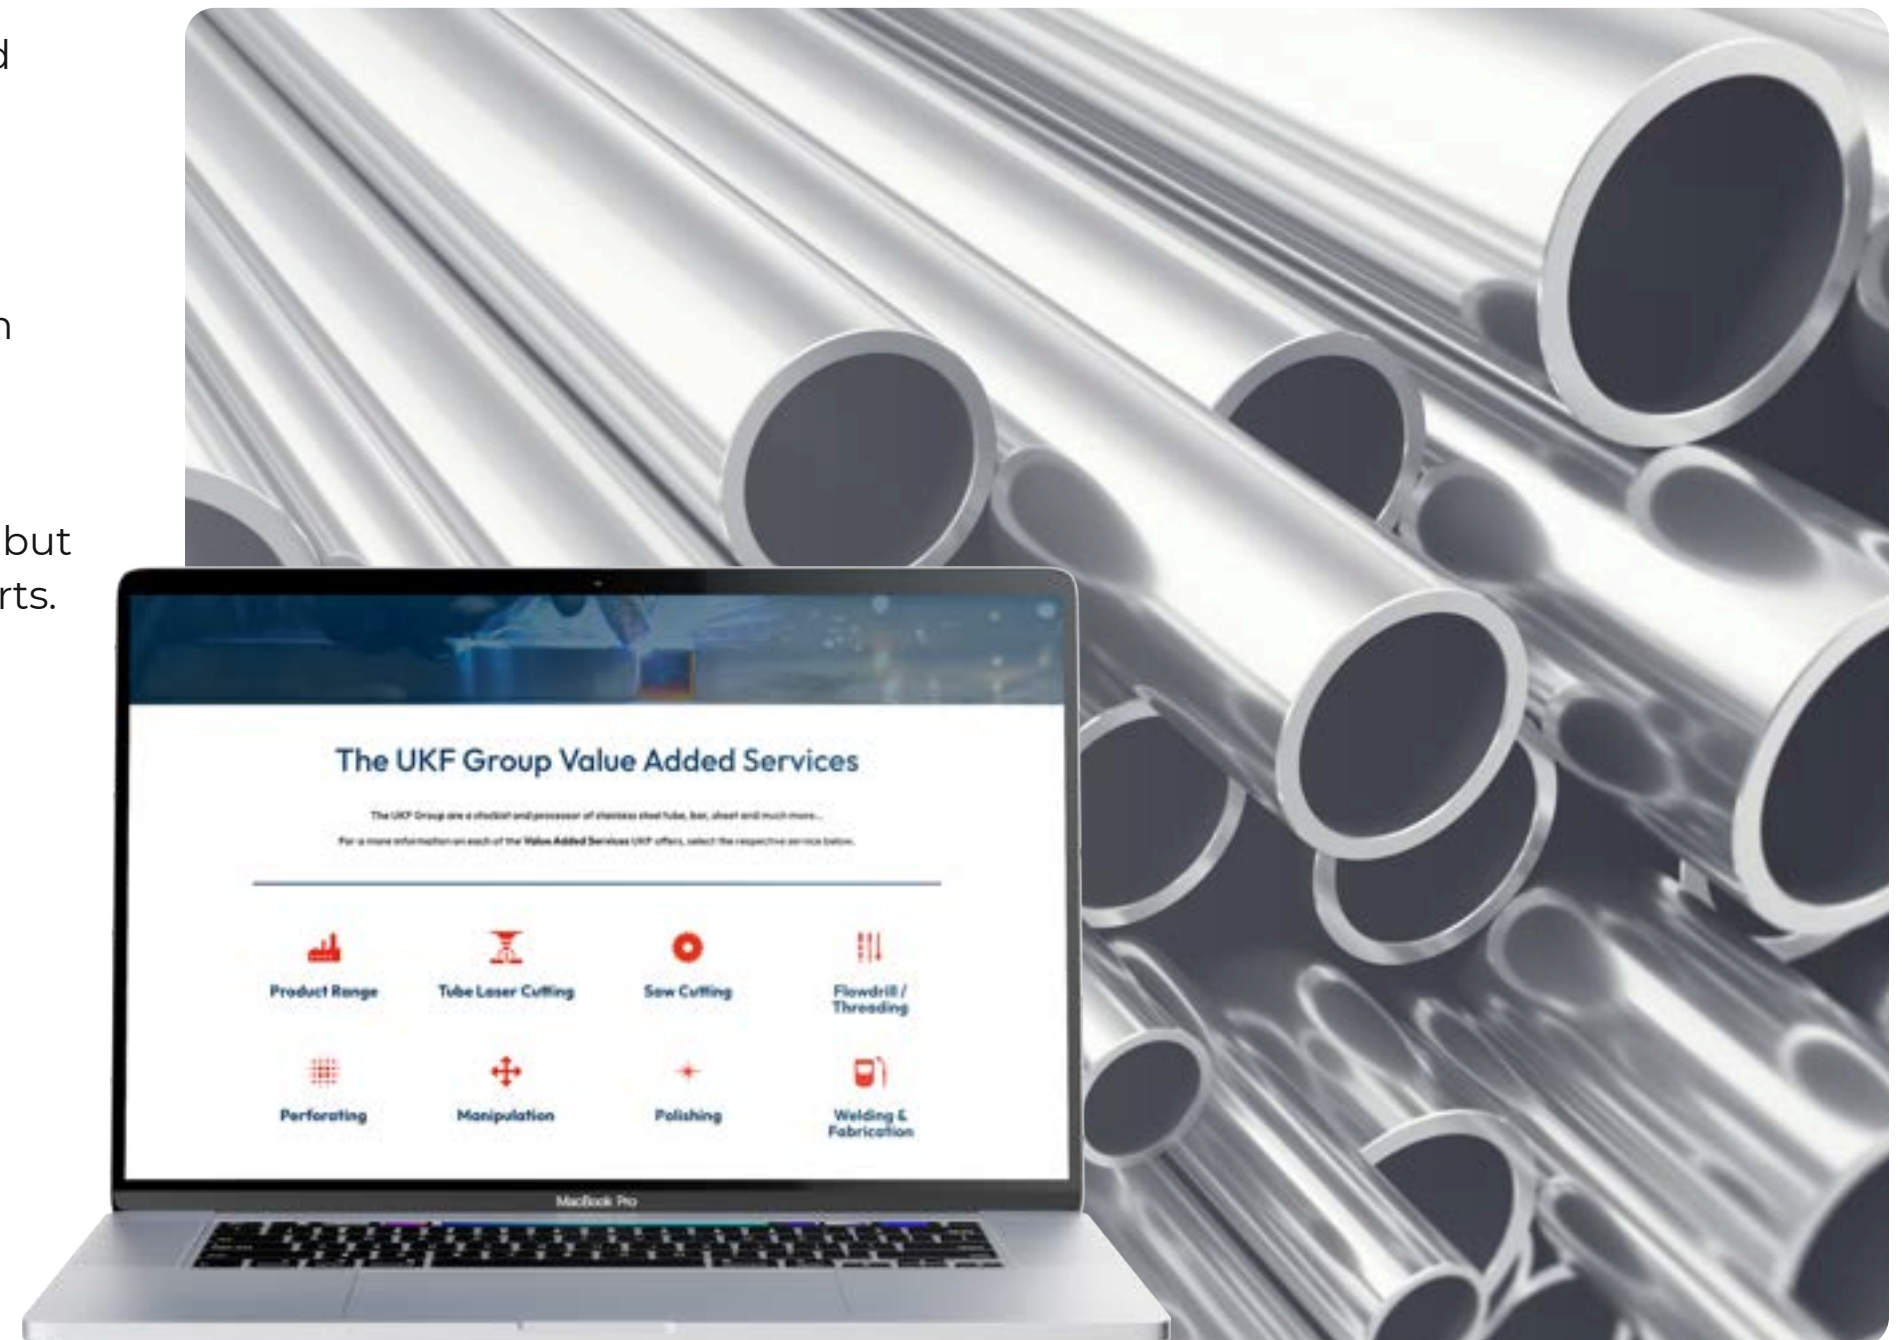

Full Digital Marketing Service

UKF Group, a leader in the metal and steel industry, faced issues with an outdated website, minimal social media presence, and an undeveloped email marketing strategy. The website was not optimised for modern SEO practices and suffered from poor user experience, this limited their ability to engage effectively with potential customers and maintain relevance in a competitive market.

We aimed to enhance the online presence with an updated website, improve search engine visibility, social media reach, and customer engagement through targeted email campaigns for UKF Group, improving overall user engagement, increasing organic traffic, generating more leads, and expanding brand reach.

This integrated approach not only improved visibility and customer interaction but also provided a robust foundation for ongoing success in digital marketing efforts.

Client Testimonial

“Working with the Angry Apple team has been an absolute pleasure, your professionalism, creativity, and attention to detail have been exemplary.

We’ve already received numerous compliments on the new website, and it’s clear that your expertise has greatly enhanced our online presence. We look forward to continuing our partnership with Angry Apple Media and would highly recommend your services to anyone seeking exceptional website design and development.

Thank you once again for your outstanding work.”

Chris Morris - CEO, UKF Group

Matatalab

Full Digital Marketing Service

Matatalab is an international manufacturer of STEM Coding Products. Distributing products to many countries across Asia, Europe, and the United States.

Matatalab provides a range of coding products targeted at both the B2B and B2C markets. Working closely with primary schools throughout the global Matatalab is helping to enhance many children's learning in a fun, creative and engaging way.

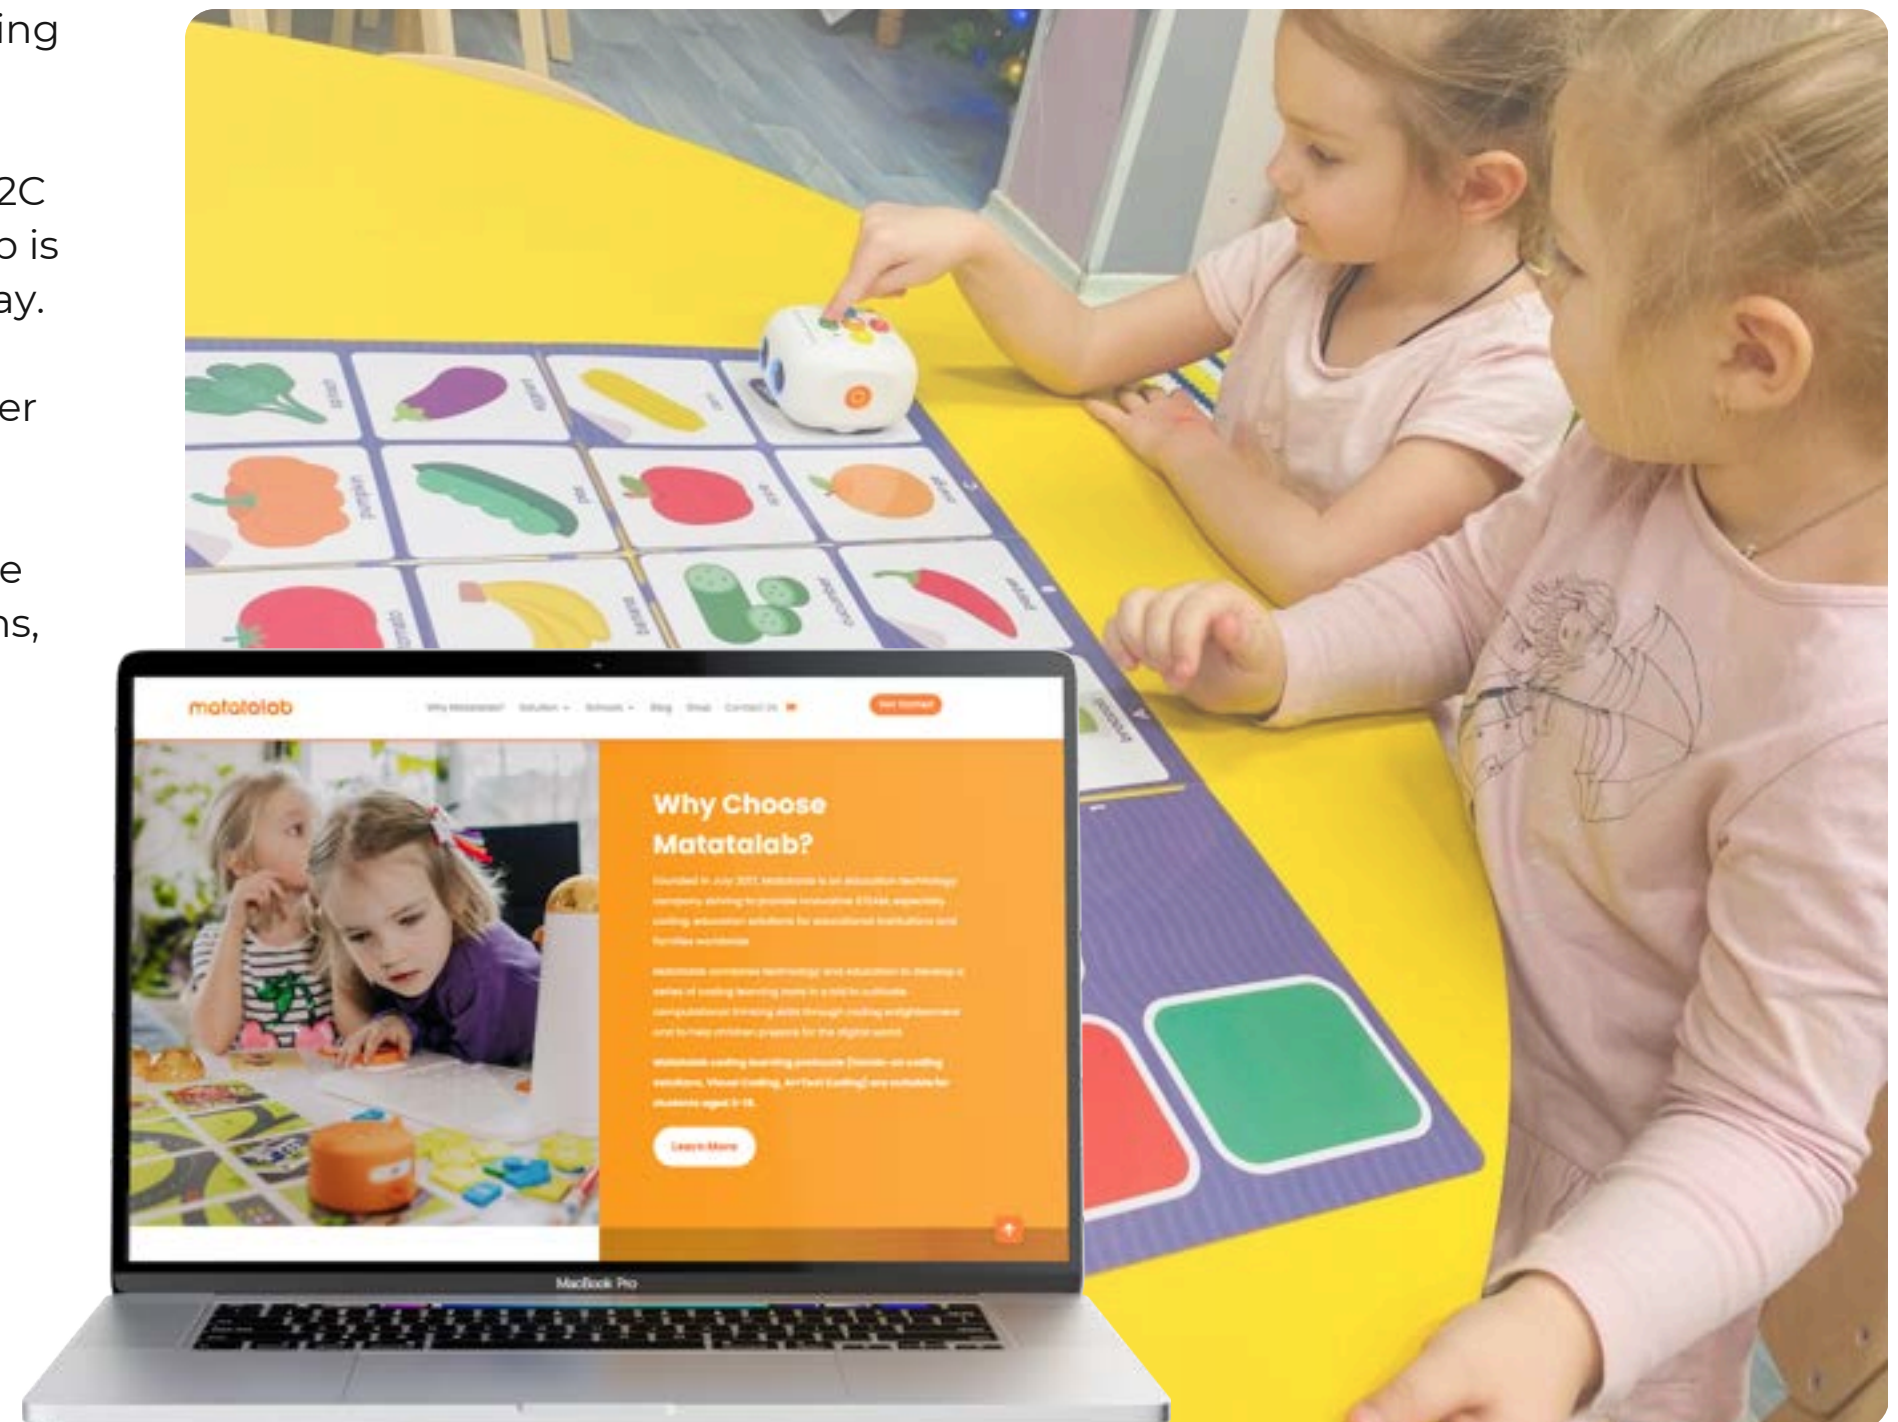

We started work with Matatalab in September 2022, as we discovered each other during an educational event held at the NEC.

After a brief conversation, marketing discussions enhanced rapidly following the event as it became clear Matatalab needed support regarding website redesigns, raising their profile within the UK Education sector and implementation of worldwide targeted marketing campaigns

Our objectives across multiple omnichannel campaigns were to:

- Complete redesign of their WordPress website
- Refresh their Shopify store
- Raise awareness of Matatalab to UK Primary Schools.
- Digital Marketing Strategy to Launch New VinciBot product into the US
- Increase Black Friday Sales

Totally Vapour

Full Digital Marketing Service

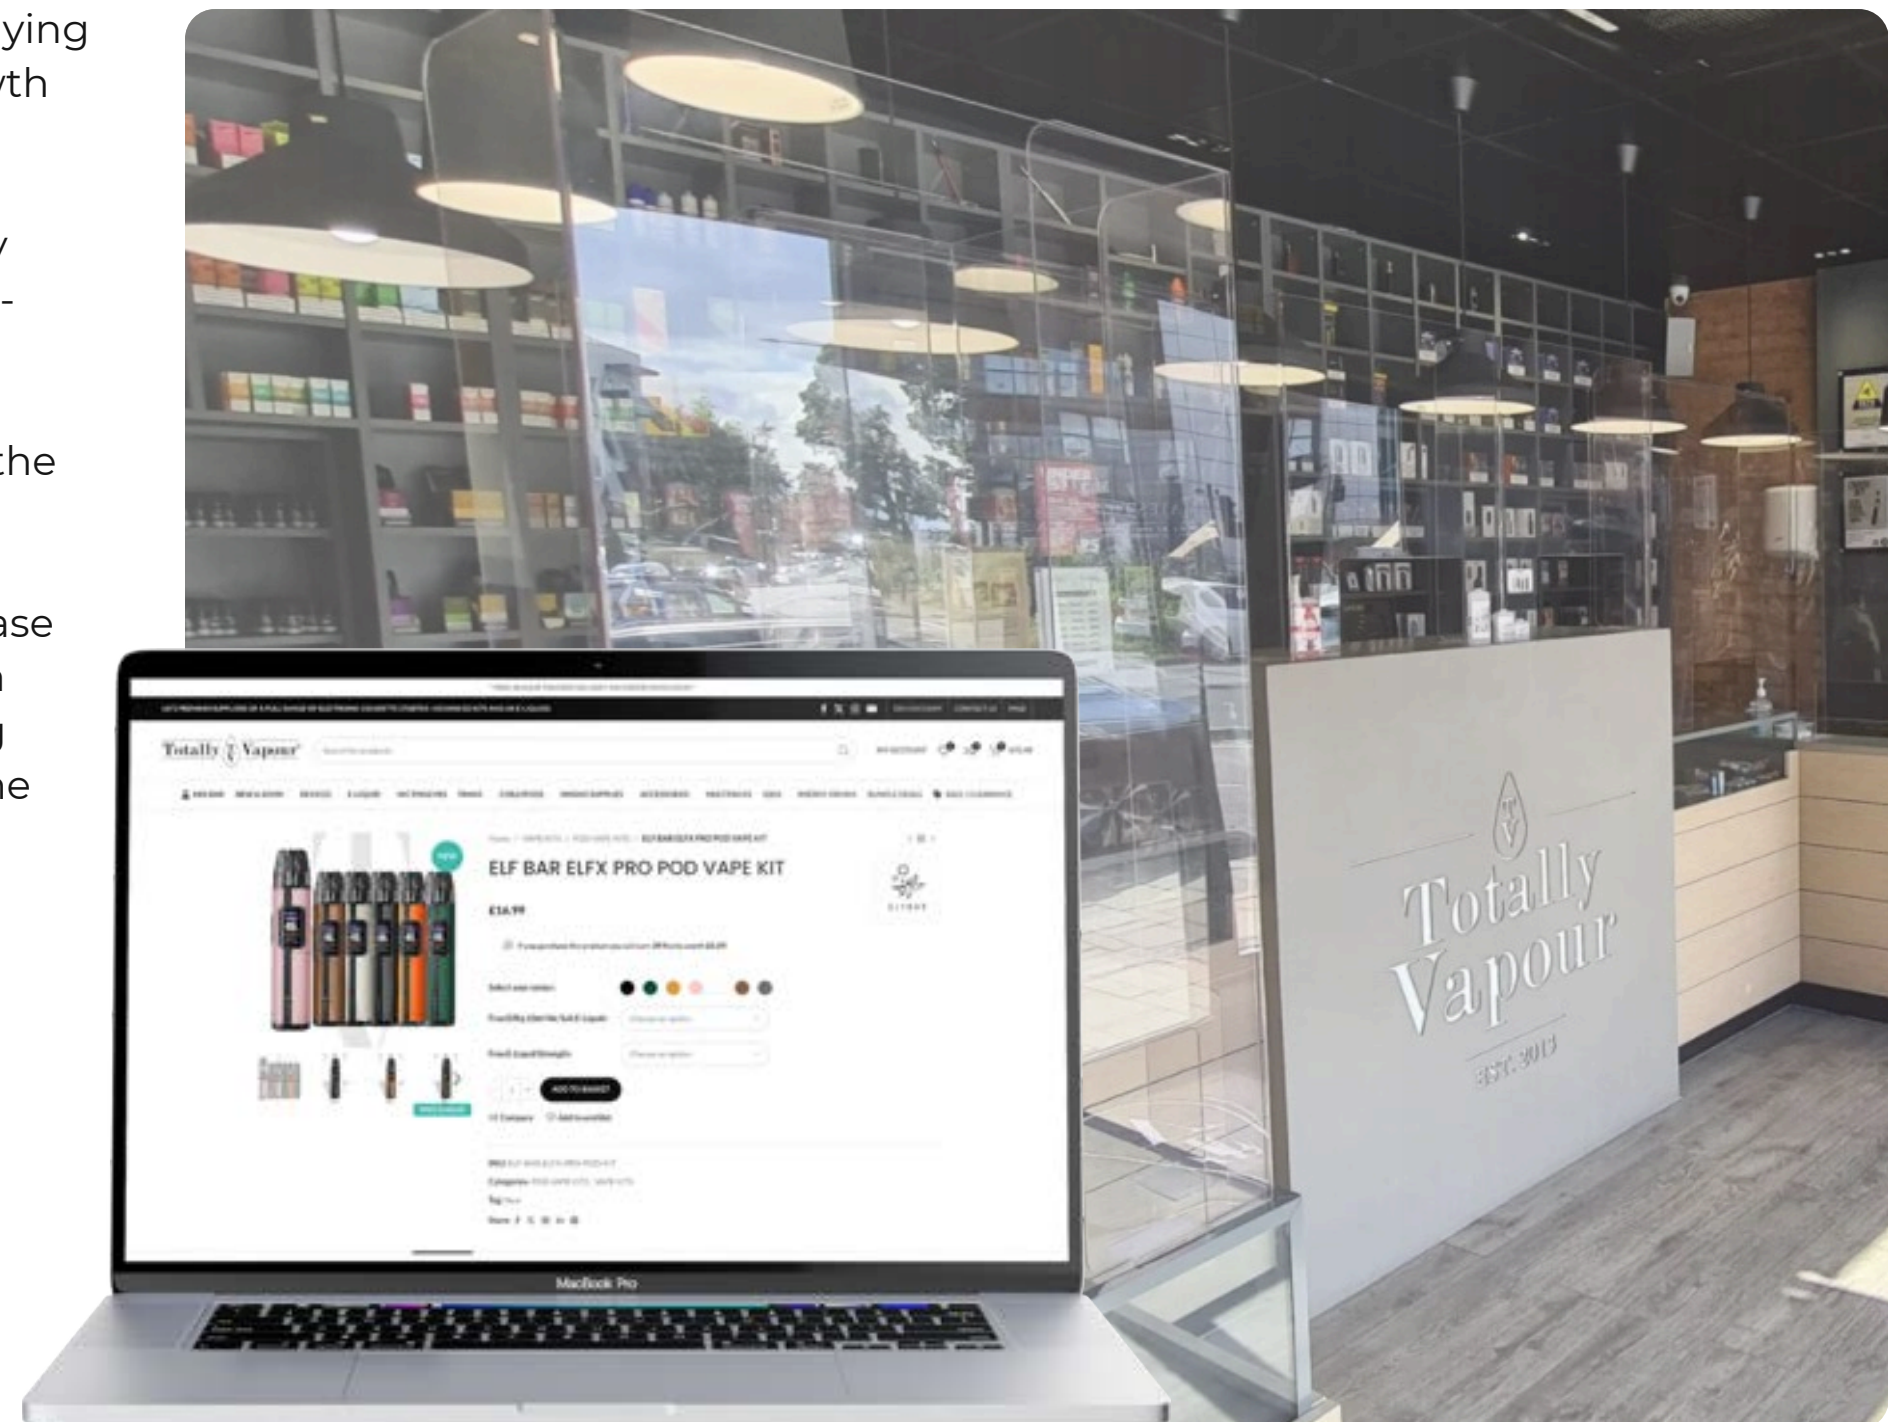

Totally Vapour is an on and offline retailer of vapes based in Birmingham. Supplying 1000's of vape kits, e-liquids and accessories. Totally Vapour has ambitious growth plans and aims to become the UK's leading supplier of vape products.

We started working with Totally Vapour a few months after they launched, they approached us for guidance on the best way to drive traffic to this newly built e-commerce website.

Angry Apple set about creating an SEO strategy to increase traffic and sales to the website.

Within 6 months we increased traffic by over 200% resulting in a massive increase in daily sales. The customer data gathered through these sales have now built a solid growing database which has brought massive success to email marketing and social media using our CORE marketing platform to support and sustain the business growth.

[Find out more →](#)

Totally Vapour

SEO

Due to marketing regulation and advertising regulations across Google Ads and Facebook restricting advertising for vape products, we set about implementing a flexible marketing retainer with a key focus on SEO and organic growth strategy.

Our objective was to increase month on month organic traffic and sales for vape products, so we focused our efforts on:

- Keyword Research: We focused on generic terms and brands, particularly high-traffic keywords related to disposable vapes. Our emphasis was on Elf Bars.
- Website Audit: We audited product pages and redesigned them for better conversion. We also implemented technical fixes to enhance load speed and optimization.
- On-Page SEO: We optimized various elements, including meta titles and descriptions, images, URLs, internal links, and content.
- Off-Page SEO: We executed a link-building strategy to increase domain authority, build high-quality backlinks, improve anchor text for target keywords, drive referral traffic, and establish brand authority online.

Our results:

386

Over 300 keywords in the Top 10 of Google

43000

Over 40k website visitors per month

3000%

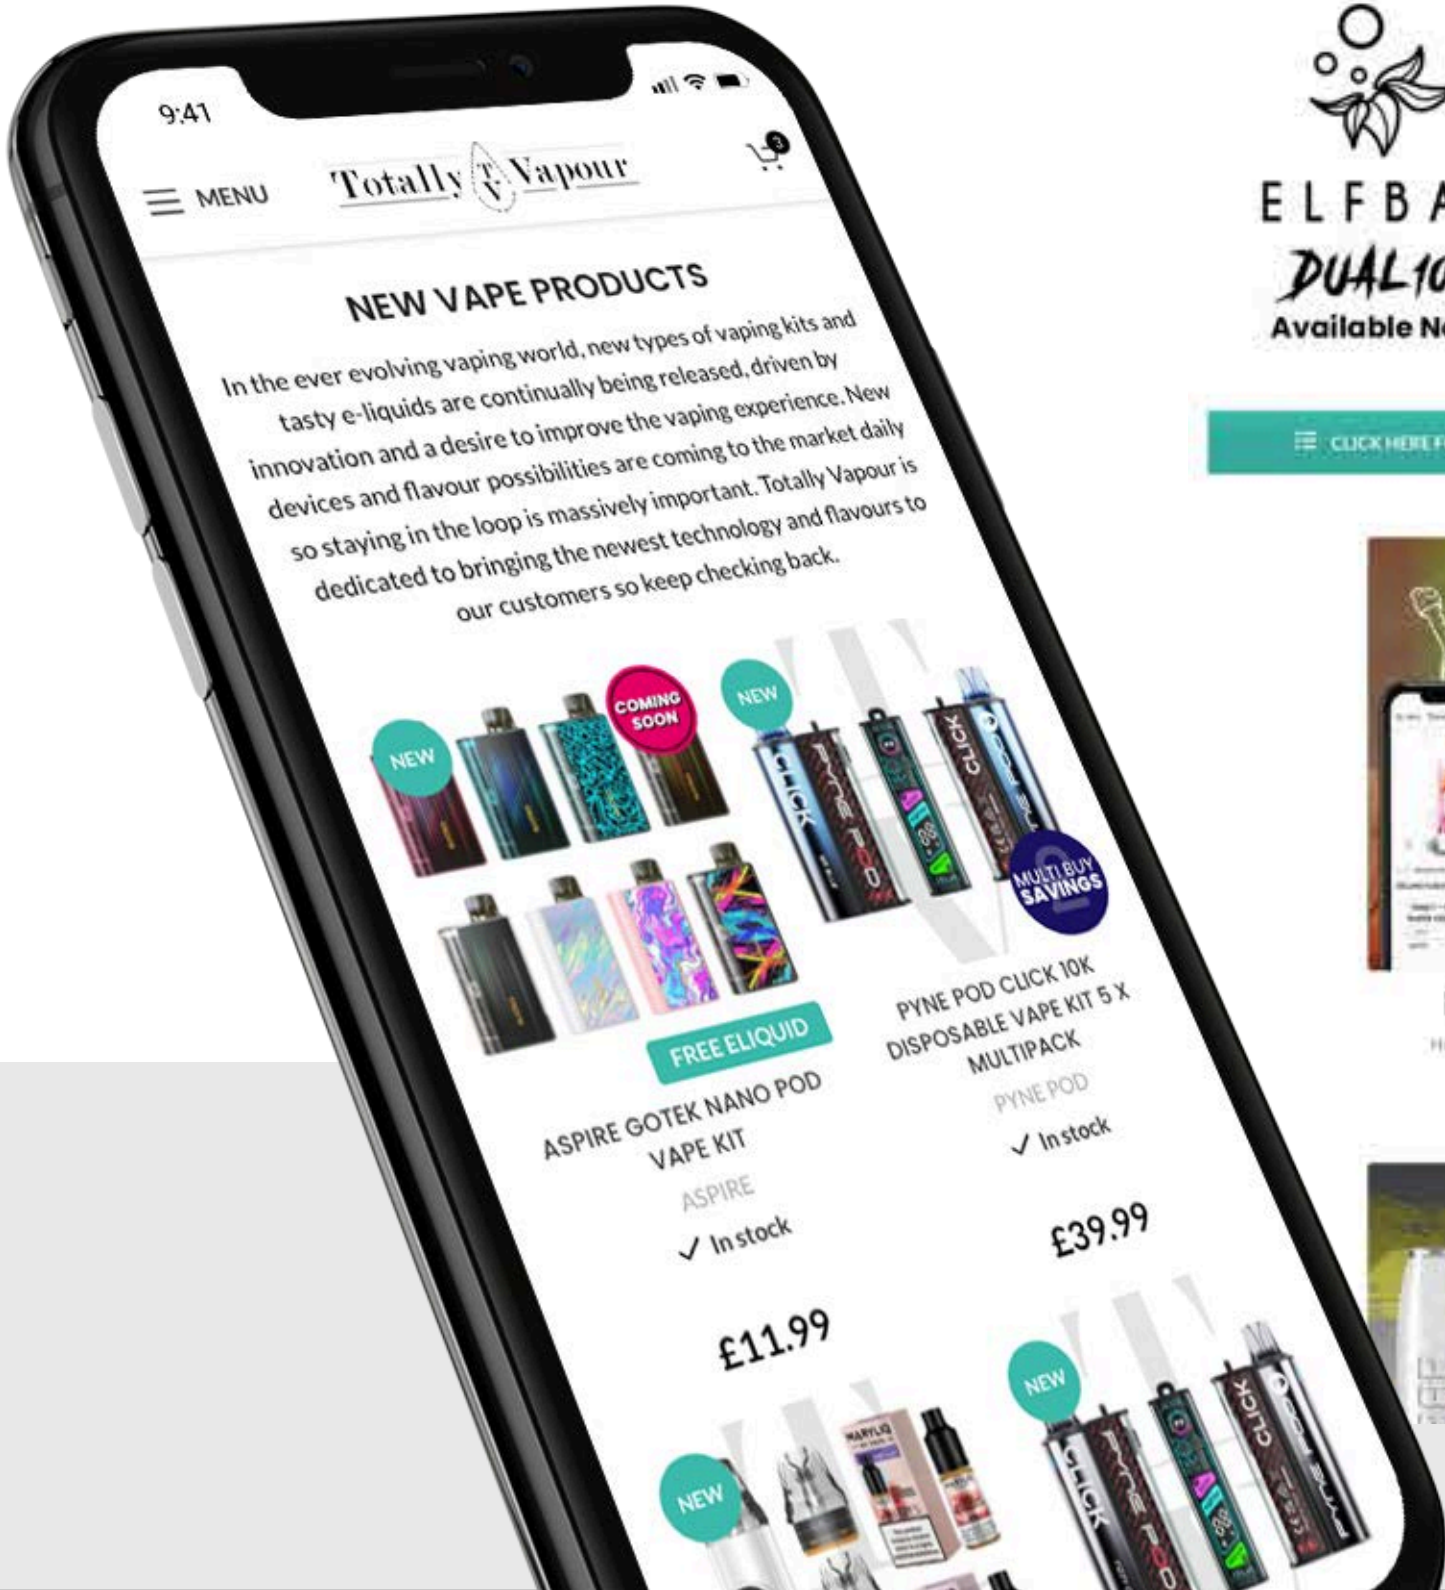

Increase in monthly revenue

Craig Charles

International Website Design & Development

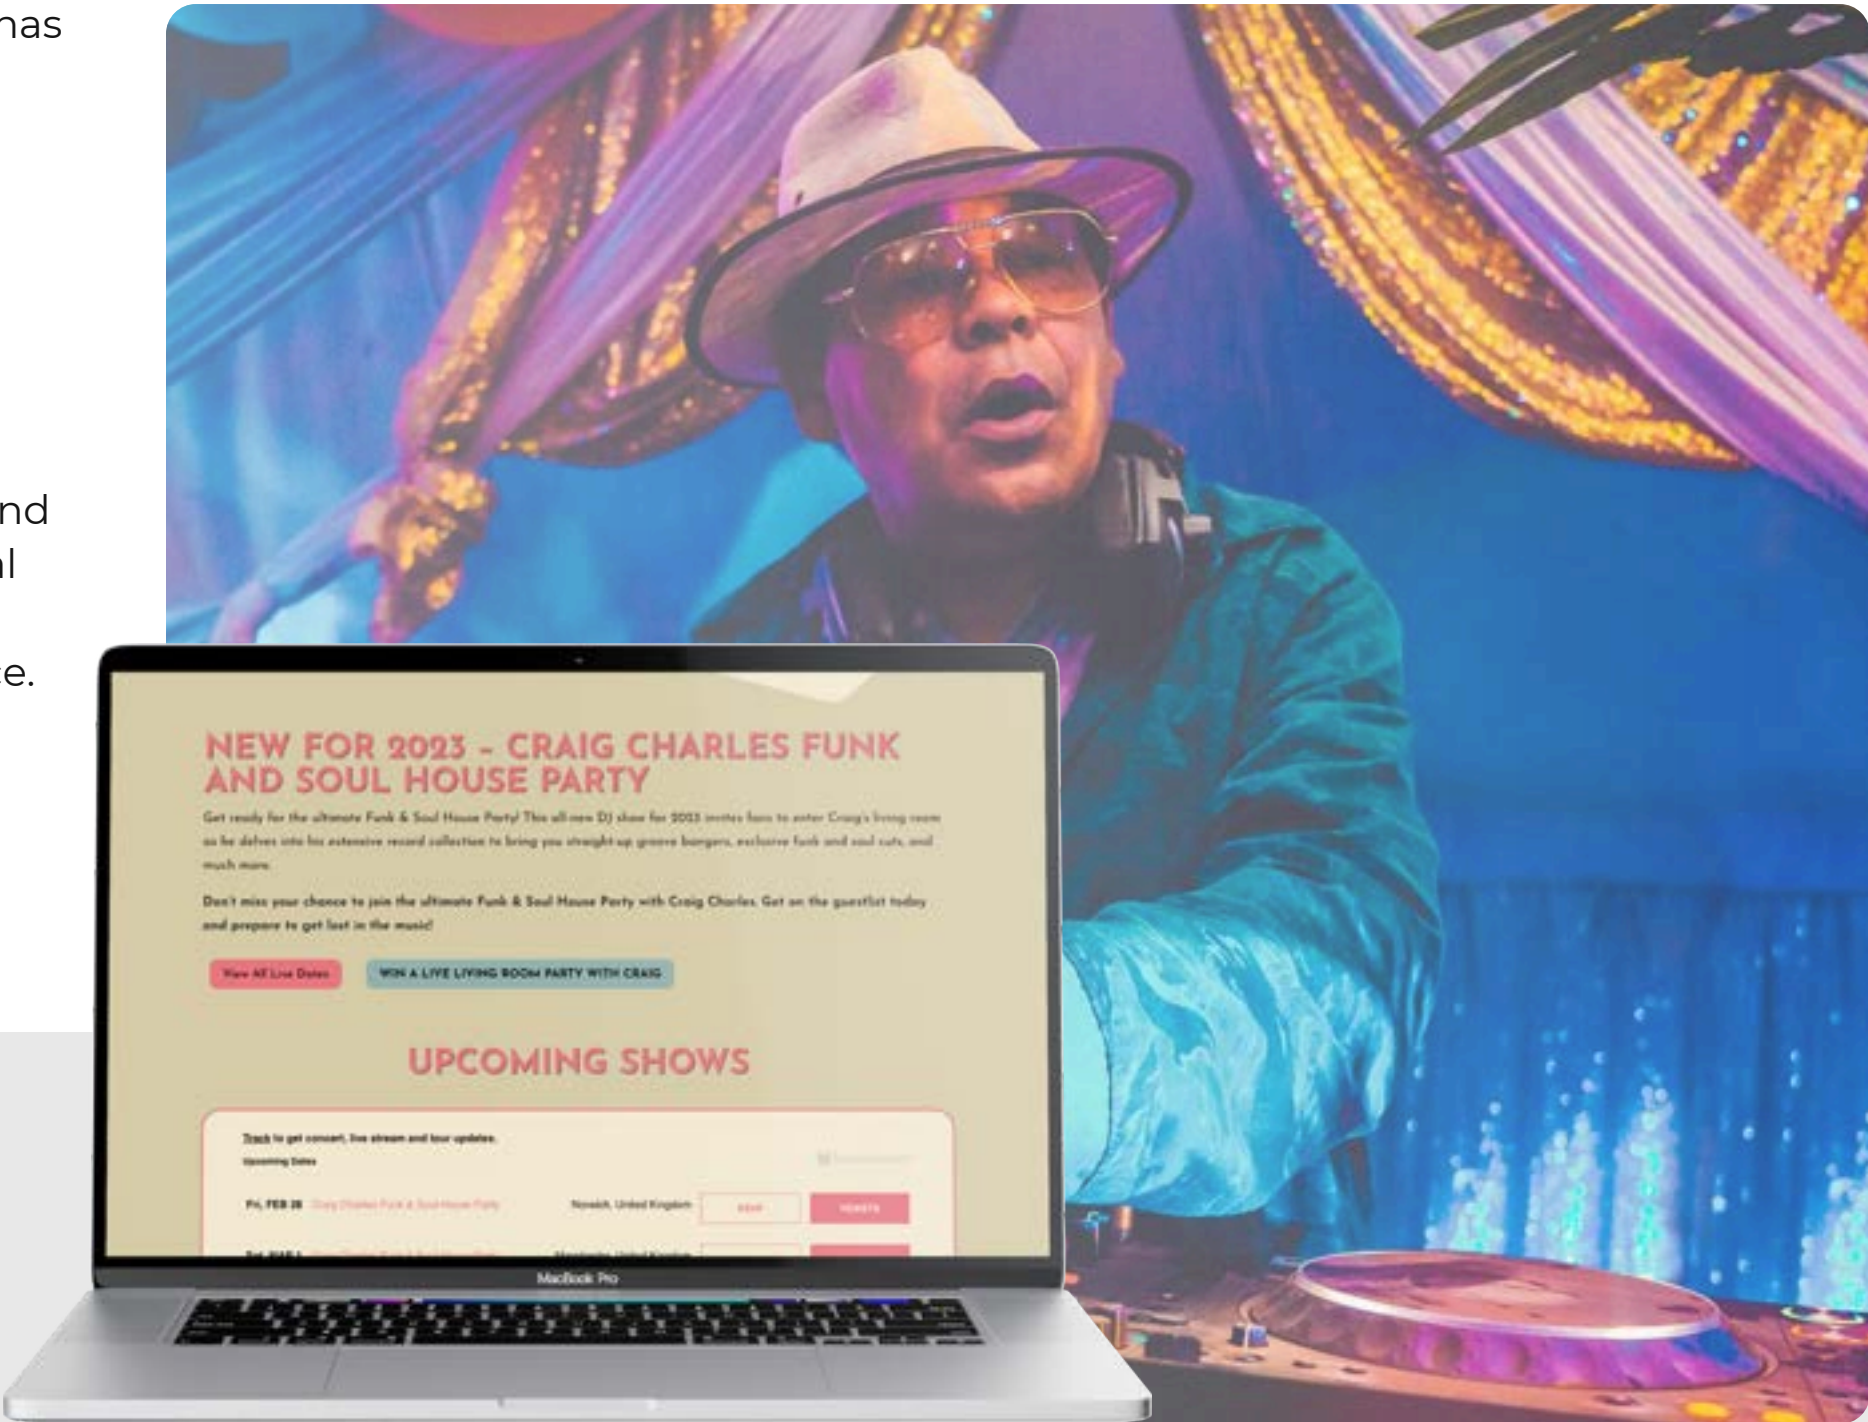

If you don't know him from Red Dwarf, Robot Wars or Eastenders Craig Charles has been taking the music scene by storm, earning a reputation as one of the most exciting DJs in the business. From the stages of Glastonbury to the airwaves of BBC 6 Music, Craig has been entertaining crowds with his infectious energy and unbeatable beats for over 30 years.

It was vital that the new website represented Craig Charles for the vibrant, exciting shows he performs, as a well respected and well known celebrity the website had to follow strict brand guidelines. by showcasing his live shows and providing an easy user journey. We supported Coalition Presents through several in-depth consultation periods which included design concepts, systems and integrations, along with competitor research, to identify the best 'user experience.

Symphony

Shopify Website Design & Development

Symphony, an Indian multinational company with a presence in over 60 countries is the world's largest manufacturer of air-coolers. From inventions to innovations, energy responsibility to environment stewardship, Symphony is a market leader that has been providing comfort cooling to its customers for generations.

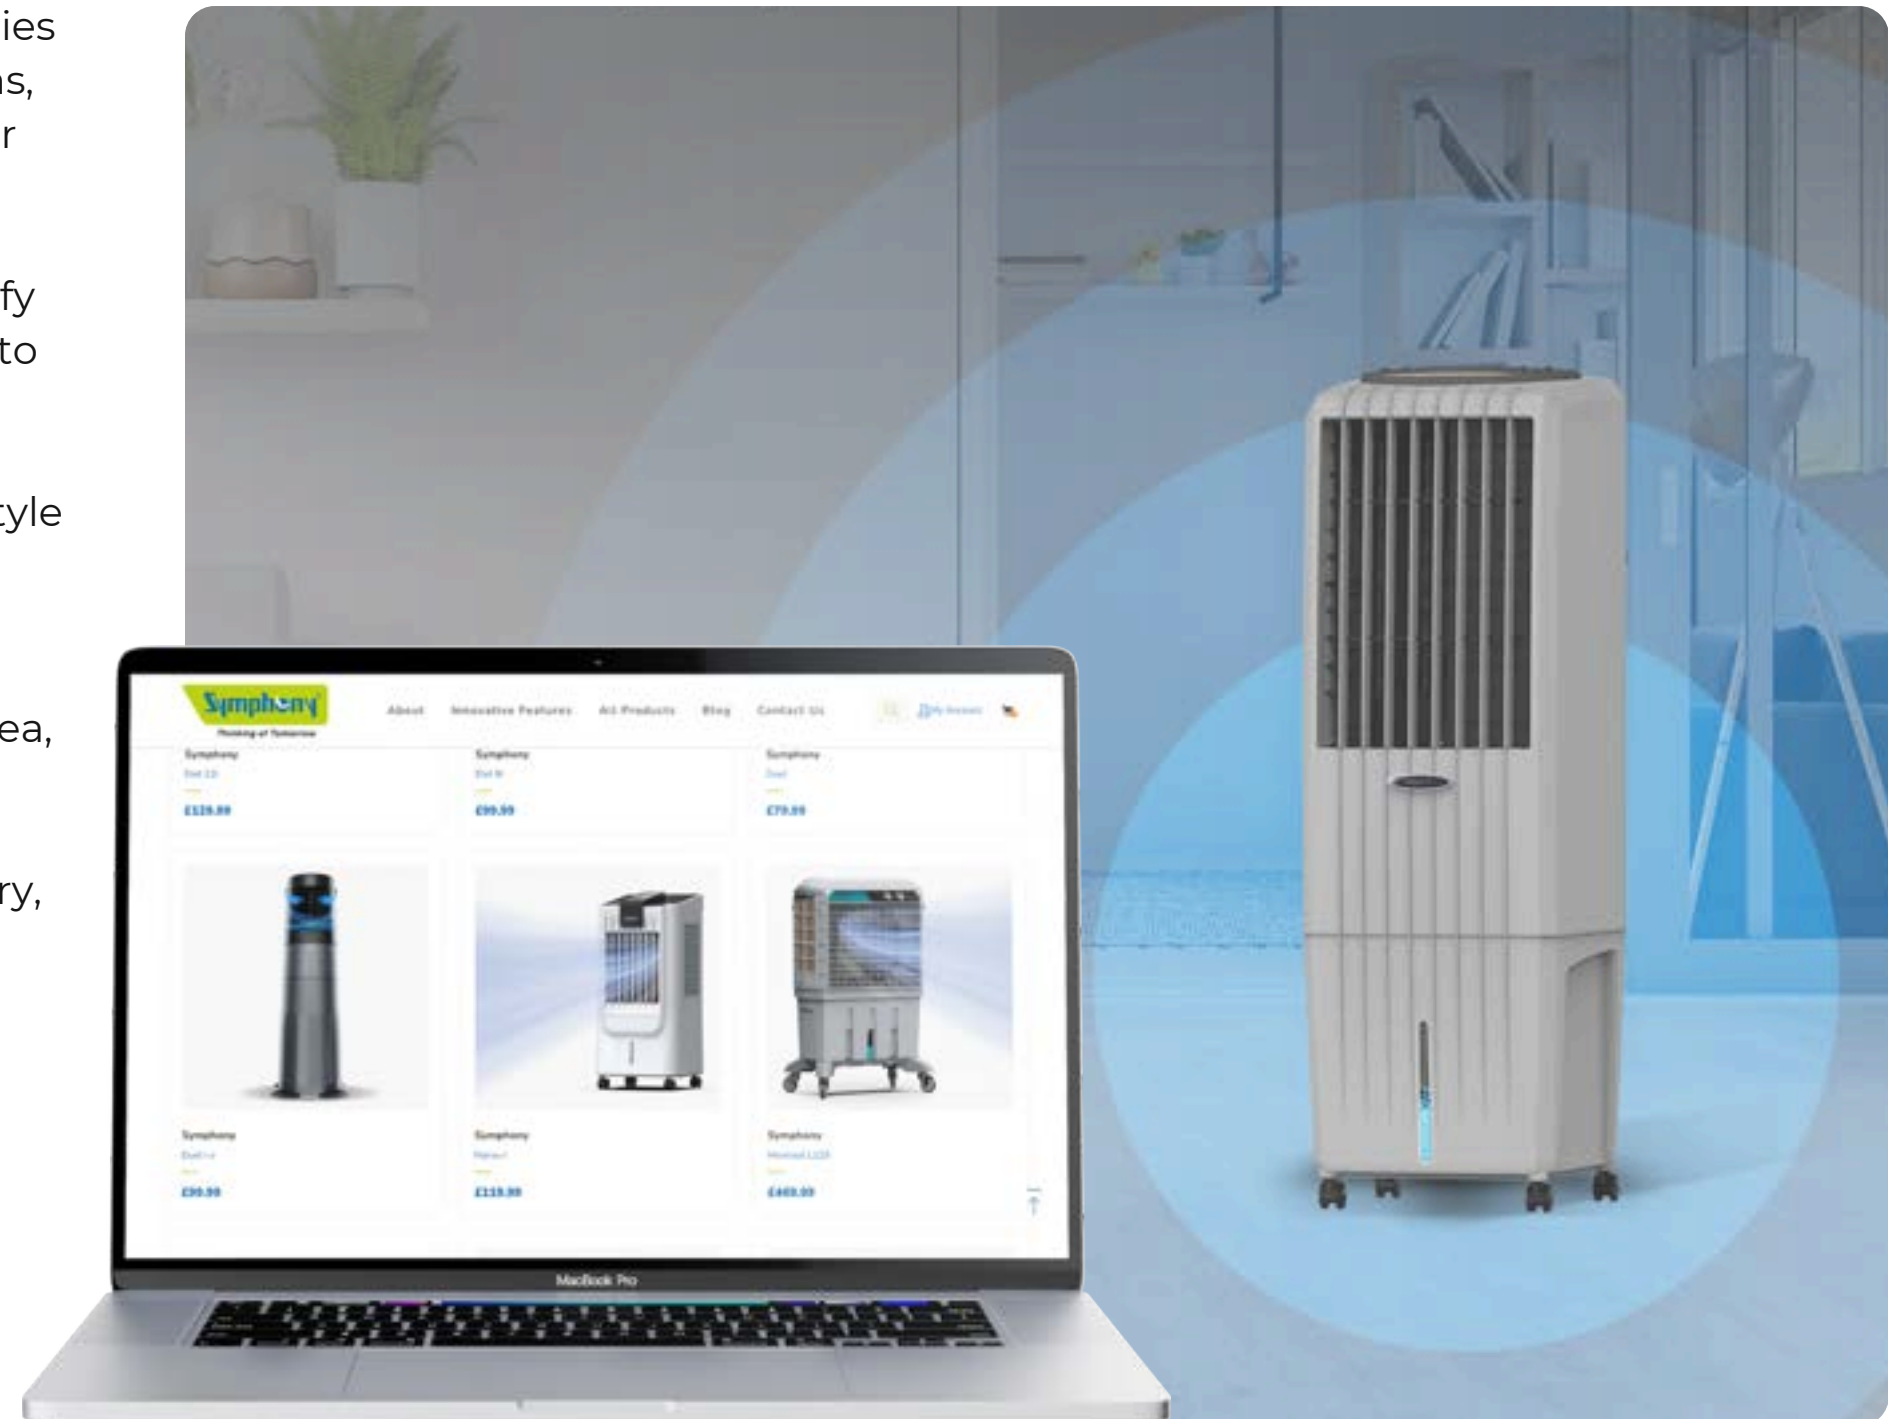

We set about creating a slick and easy-to-use experience for the website, Shopify was the natural choice for Symphony, and the global platform was well-placed to cope with the demands for cooling products.

We created a simple but effective layout that showcases the products and lifestyle imagery across the site. The payment integration links with SAGE for an easy internal order and delivery service.

Following the completion of the design. We began the build in a live staging area, allowing the client to view it in real-time.

Symphony now has a bold, and high-quality website in place, with great imagery, videos, and content to showcase their impressive products.

Glenn Group

Client Testimonial

“I am thrilled to provide this testimonial for Angry Apple Media and the outstanding job they did for GLENN Cleaning & Support Services. From start to finish, their services were nothing short of exceptional, and I am immensely grateful for their expertise and professionalism.

When we approached Angry Apple Media to revamp our proposal, we were in need of a fresh and compelling approach to our marketing strategy. Right from the beginning, they took the time to understand our business, our goals, and our target audience. Their attention to detail was impeccable, and they meticulously analyzed every aspect of our proposal to ensure it aligned with our objectives.

What truly sets Angry Apple Media apart is their commitment to excellence. They went above and beyond to deliver a truly first-rate job. Their team of experts crafted a new proposal that exceeded our expectations. It was clear that they had invested time and effort into researching our industry, competitors, and market trends. The result was a highly detailed, engaging, and persuasive proposal that showcased the unique value proposition of GLENN.

However, their contribution did not stop there. Angry Apple Media also offered valuable professional advice on various aspects of our marketing strategy. They shared their insights on branding, messaging, and positioning, helping us refine our overall marketing approach. Their guidance was invaluable, and we could see a noticeable improvement in our marketing efforts thanks to their expertise.

Throughout the entire process, Angry Apple Media maintained clear and timely communication. They were responsive to our inquiries, receptive to feedback, and always willing to go the extra mile to ensure our satisfaction. It was evident that they genuinely cared about our success and were fully committed to helping us achieve our goals.

In conclusion, I cannot recommend Angry Apple Media highly enough. Their exceptional work, attention to detail, and professional advice have had a significant impact on our business. Thanks to their expertise, our revamped proposal has already garnered positive attention and I am sure will be instrumental in helping us secure new clients. If you are seeking a partner who will deliver outstanding results and elevate your marketing efforts to new heights, Angry Apple Media is the perfect choice..”

Seyi Onadeko - Sales and Marketing Manager, Glenn Cleaning & Support Services Ltd

LocknLevel

Full Digital Marketing Service

The LocknLevel has been designed and is manufactured for caravaners by caravaners. With almost forty years' experience, pitching on hundreds of caravan sites in the U.K. and Europe, LocknLevel understood the need for a system that was light and portable, yet was quick and easy to use, but couldn't find one, so they produced LocknLevel: the only system of its kind.

The website for LocknLevel was built on WordPress with a custom theme to embody a professional yet approachable brand image. It aims to provide an intuitive user experience from product discovery to checkout, with a responsive design for all devices, by using:

- Clean, modern design focused on products and brand identity
- E-commerce functionality through WooCommerce for secure shopping
- Easy navigation with a structured menu and search bar
- Fast page load times via optimised images and caching

For the e-commerce section, WooCommerce was chosen due to its scalability, flexibility, and ease of use. WebToffee plugins were integrated for advanced functionality, including:

- Multiple secure payment gateways (PayPal, credit cards)
- Real-time shipping calculators based on customer location
- Management of product variants (colour, size, material)
- Real-time order tracking for customers
- Custom checkout tax fields for flexible invoice details.

Generation Exhibitions

Rebrand and Wordpress Website Design

Generation Exhibitions is a company that specializes in creating bespoke exhibition stands designed to elevate brand presence at events. They have extensive industry knowledge and a global network of partners, allowing them to provide comprehensive support for businesses looking to make an impact at exhibitions.

In addition to designing unique stands, Generation Exhibitions focuses on bringing brands to life through creative design and expert project management. Their goal is to simplify the event planning process for marketing managers, relieving them of logistical burdens so they can concentrate on preparing their teams for the exhibition. By collaborating closely with clients, Generation Exhibitions aims to transform exhibitions into premium brand experiences.

We revamped the Generation Exhibitions website and brand, enhancing its design and user performance using WordPress and a new set of brand colours and assets.

The new website reflects the brand's essence and provides a seamless user experience. By utilising WordPress's features, we established a strong online presence for Generation Exhibitions, enabling effective audience engagement and supporting their success and growth in the competitive exhibitions industry.

APT

Full Digital Marketing Service

Advanced Plastic Technology (APT) is a leading manufacturer of plastic products in the UK, established in 1991. With extensive experience in machining and fabricating industrial plastics, APT caters to a wide range of customer needs. Their in-depth knowledge of different plastic materials and various plastic processing technologies allows APT to customise solutions, ensuring the production of high-quality, precision-engineered plastic products.

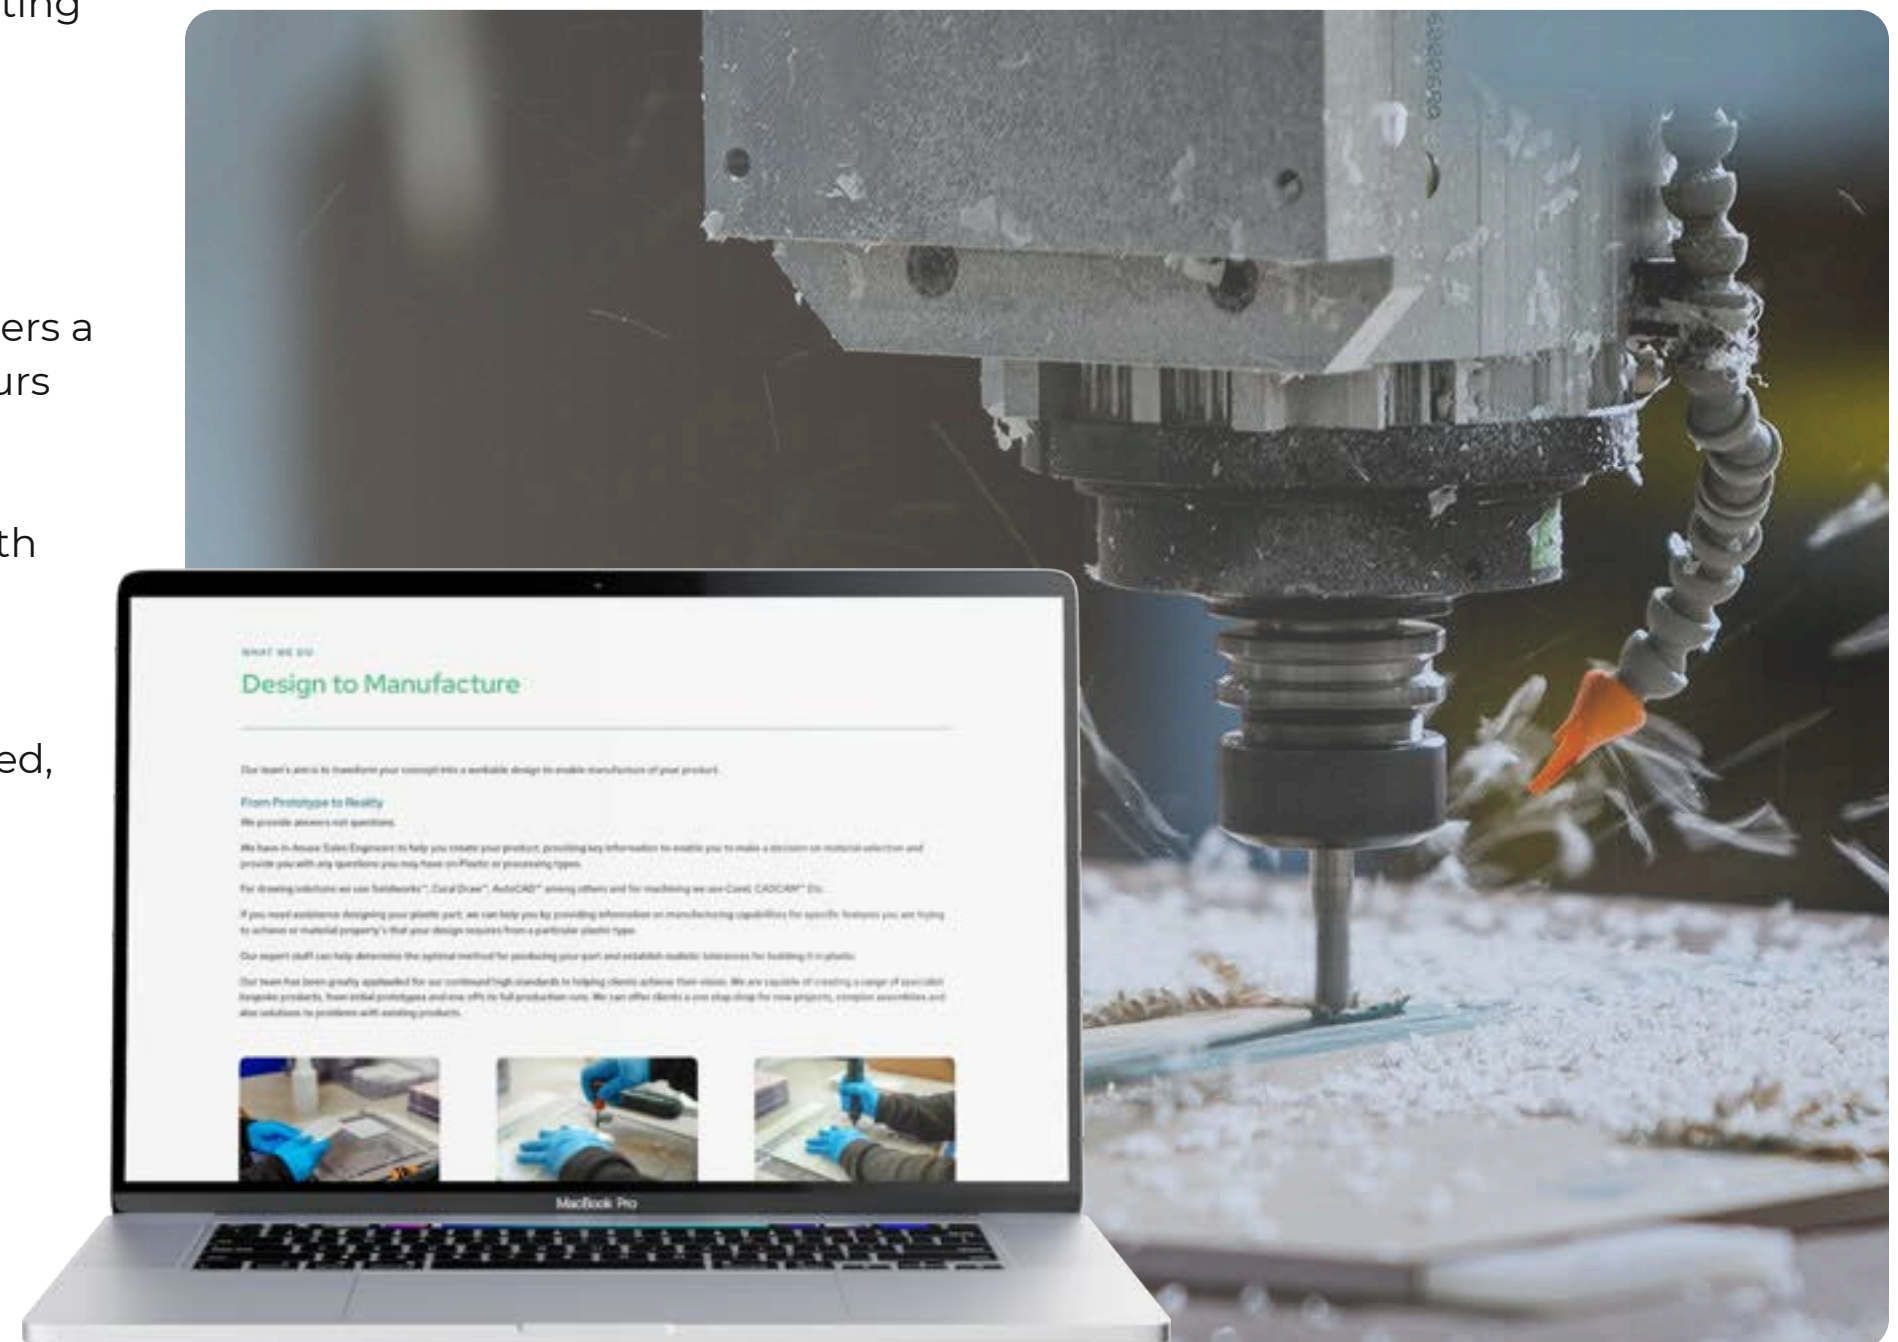

Our collaboration with APT started with a website redesign that would show users a professional and trusted company. We did this by starting with consistent colours and fonts that work throughout the site and show a strong brand.

As well as responsive design the website now has improved user experience with simple to use navigation that allows users to make an informed decisions by understanding the services they offer and the plastics they work with and their individual benefits.

Contact information is easy to access throughout the site so orders can be placed, and the chatbot feature allows questions to be answered quickly.

Once the website design was completed, we started work on SEO & PPC.
